

## **WINTER and SPRING PRUNING IN THE GARDEN**

**with Susan B. Viemeister**

**Saturday, March 10th 9 a.m. - 2 p.m.**

***RAINDATE Saturday, March 17th***

It's time once again! Late winter is the perfect time to review the pruning needs of the trees, shrubs, fruit trees and grape vines in your garden. Pruning can shape the plant, encourage more bloom and stronger growth patterns. We will discuss the "why's" and "when's" of pruning and discuss such shrubs as Viburnums, Roses, and the many different Hydrangeas. Tools maintenance and sharpening will also be discussed. We will then head out to the Pharsalia gardens to show exactly where and how to make those important cuts. We are offering this class again this year with a greater emphasis on **hands-on demonstrations** out in the gardens.

Each participant will receive useful calendars for when to prune shrubs and trees.

Please dress **warmly** for outdoor activities and bring your favorite clippers and gloves.

**Catered Lunch** is included in fee.

**Fee: \$65**
